

Country of Origin : Taiwan

Key Specifications/Special Features:

Input voltage: 110VAC or 220VAC (50/60Hz)

Battery: 24VDC, 1.2 to 7Ah

Circuit voltage: 24VDC

End of line resistor: 10K ohms, 1/4 to 1/2W

Detectors: photoelectric smoke detector, fixed-temperature detector, rate of rise detector

Main bell: 24VDC, 90dB

Notification appliance circuits (NAC): 24VDC

Supervisory circuit: detects the difference between the normally open supervisory switch and a break in the field wiring

Dry auxiliary alarm contacts: 5A, 120VAC or 24VDC; resistive, 5A at 250VAC

Cabinet: 1.6mm steel plate

Color: ivory
