## Stand alone keypad for cost effective keyless access control

**Banks**

- Up to 1000 unique 1 to 10 digit codes for greater security and versatility in a multi user application (up to 10 billion permutations).

**Hotels**

- Selectively add and delete user codes - easy administration of multi user system.

**Offices**

- Memory backup facility - guarantees data security.

**Homes**

- Multiple outputs for improved functionality.
- Optional SMART switch - prevents 'hot-wiring' of the system.

**Schools**

- Anti-hack feature - prevents access through vandalism.

**Hospitals**

- Various alarm conditions including duress and panic - increases situational safety.

**Factories**

- Programmable down counter allows a limited number of accesses.

**Apartments**

- Elegant sturdy construction - for greater durability.

**Storage Facilities**

- Weatherproof - suitable for both interior and exterior use.

- Backlit keypad with audible feedback - improved usability in dark conditions.

- Optional anti-tamper switch - provides warning of physical tampering.
